Greater Bunbury Medical Centre,
Ground Floor, 12-16 Vasse Street, Bunbury WA 6230
hello@newyou.com.au | www.newyou.com.au

About Us

At New You Aesthetics we use the latest cosmetic treatments and evidence based laser technology to provide our clients with high end care and results.

Every client, both women and men, are unique and our team of highly qualified doctors, cosmetic nurses and skin therapists are focused on delivering safe treatments and procedures to beautify, rejuvenate and revitalise you.

All patients require an initial GP Consultation prior to any treatments and procedures at our clinic. This is to determine if the patient is eligible for the treatment and a plan is put in place to ensure the best results possible for the patient.

Skin Consultations

Here at New You we believe it's essential to understand you and your skin. We do this by starting your skin journey, with one of our complementary Skin Consultations.

This involves a quick sign in to register with the clinic and then we commence your consult with an overview of your skin concerns, your current skincare program and what your skin goals are. Next is a skin cleanse to better observe the current condition of your skin. From here you will be giving direction to our Clinical Imaging® facilities. Clinical Imaging® allows us to take professional high-resolution photographs, that will document your skin journey by keeping a consistent photographic record of your visits and skin results along the way.

Before our final recommendation is given and explained to you...

Facials

HydraFacial

from **\$175 / x 6 \$840**

Only HydraFacial uses patented technology to cleanse, extract and hydrate. HydraFacial super serums are made with nourishing ingredients that create an instantly gratifying glow. Regular treatments help to build skin health.

Skin Needling

from **\$220 / x 3 \$600**

Skin needling also known as micro-needling, is a procedure that uses multiple, fine needles that create controlled micro injuries. These dermal injuries lead to new collagen formation, via the normal skin peel repair mechanisms, enabling the deposition of new collagen. This treatment can be performed on multiple areas on the body.

Add-ons include:

- ◆ Hair Restoration & Rejuvenation using AnteAge MD Microneedling Solution
- ◆ AnteAge Stem Cell Serum
- ◆ HA Filler

Multiple treatments may be required to achieve desired results.
Please discuss expectations with your Doctor/Technician at time of consultation.

Ultraceutical Facials

Ultraceuticals is Australia's leading cosmeceutical brand, providing people with products scientifically tested to deliver real, visible results. Ultraceuticals is proudly Australian made and owned. We offer a range of different facial treatments using these products to treat multiple skin concerns.

Signature Facials 30mins **\$85** 1 hour **\$120**

Ultraceuticals luxurious signature facial treatments incorporate potent active ingredients. Ultra-sonophoresis and massage to treat key skin concerns including premature skin aging, pigmentation/uneven skin tone, dehydration and congested skin.

Skin Workouts (30mins)

Skin workout treatments (or known as skin peels) aim to rejuvenate skin through accelerated exfoliation. These treatments have been developed to quickly refresh and restore skins youthful appearance. We offer:

Mandelic Peel **\$100**

Skin workout treatments (or known as skin peels) aim to rejuvenate skin through accelerated exfoliation. These treatments have been developed to quickly refresh and restore skins youthful appearance.

Lactic Peel **\$95**

Reveal refreshed, youthful, radiant skin in this treatment. This high-powered peel actively works to resurface and improve the skins moisture levels while restoring clarity & luminosity.

Multiple treatments may be required to achieve desired results.
Please discuss expectations with your Doctor/Technician at time of consultation.

Ultraceutical Facials

A-Zyme **\$130**

The powerhouse of all the anti-aging treatments. This is a fast-acting non-invasive peel that combines ingredients of Retinol & Bromelain to refresh, refine, hydrate & plump the skin. It aids to reduce the appearance of fine lines & wrinkles, even skin tone and improve overall luminosity.

Radiance Plus **\$125**

This radiance boosting mask combines a powerful blend of skin brightening agents to rapidly reduce the appearance of hyperpigmentation, dark spots and blotchiness to instantly reveal a luminous complexion.

Ultra Plus +
Using a customized treatment plan to correct several concerns

Mandelic Plus +/-Mandelic plus ++ **\$115/\$150**

Lactic Plus +/-Lactic Plus ++ **\$115/\$150**

Radiance Plus + **\$160**

A-zyme +/- A-zyme Plus ++ **\$190/\$225**

A-zyme & Radiance **\$290**

Lactic/Mandelic & Radiance **\$190**

Multiple treatments may be required to achieve desired results.

Add on Treatments

Sonophoresis Infusion

add on **\$35**
Stand Alone **\$50**

This add-on or stand along treatment, allows you skin therapist to boost and deepen your skin workout. The procedure creates a comfortable thermal affect, in turn creating small pockets under the surface to properly allow products to be infused to the dermis. Furthermore, boosting the results on the treatment selected.

L.E.D Light Therapy – Skin Rejuvenation

add on **\$40**

LED provides the latest in a pain-free, non-invasive, soothing and rejuvenating skin treatment. It's suitable for concerns ranging from acne, aging, pigmentation by eliminating inflammation and promoting the skin's wound healing response. By using a light activation technique to increase skin rejuvenation. This is done by boosting the self-healing process of the skin with LED lights.

This can used as a stand along treatment or a add on option to boost another skin treatment.

Includes Mini Facial **\$80**

BT-Infusion Masque Therapy

add on **\$45**

A face masque used post skin needling to reduce inflammation and heat. A highly concentrated masque containing collagen to increase moisture, nourishment, tone, luminosity and resiliency while diminishing the appearance of fine lines and wrinkles.

Perk for Eyes & Lips (treatment & take home care)

add on **\$75**

This new HydraFacial add-on service will enhance your in-clinic signature treatment. It allows you to target either the lip or eye area, to better treat concerns and continue the course at home with the Perk take home product.

Lip Service: Gently exfoliates and perfectly primes lips with key ingredients such as peppermint oil and peony extract that's lightly plumps the pout.

Eye Service: Awakens the delicate eye area to help to brighten, tone & firm the eye area, all while maintaining hydration.

Ultraceuticals Mandelic peel

add on **\$50**

Ultraceuticals Lactic peel

add on **\$40**

Note: The prices on this page are add-on prices. Stand-alone Treatments may cost more.

Cosmetic Injectables

At New You Aesthetics we have highly qualified cosmetic Doctors and Nurses to ensure our patients get the best results possible with cosmetic injectable treatments.

Wrinkle relaxers and dermal fillers can be used to enhance your natural look or completely change your facial profile, whilst also delaying the signs of ageing. Our Team will provide an in-depth consultation before any cosmetic injectable procedure to ensure your safety and desired look is achieved.

Wrinkle Relaxers - from **\$130** per area

- Frown lines
- Forehead
- Lines around the eyes (Crows Feet)
- Gummy Smile
- Eyebrow Lift
- Neck Bands (Nefertiti lift)
- Lines around the mouth (smokers lines)
- Downward turn of the mouth
- Teeth grinding and jaw clenching
- Dimples chin (mentalis) relaxer
- Migraine
- Excessive Sweating

Dermal Fillers - from **\$350**

- Lips
- Cheeks
- Chin Augmentation
- Jawline
- Hands
- Tear Trough (under eyes)
- Non-surgical Rhinoplasty (Nose)

Multiple treatments may be required to achieve desired results.
Please discuss expectations with your Doctor/Technician at time of consultation.

Rosacea & Active Acne

Rosacea

from **\$350 / x 6 \$1750**

Rosacea is a chronic skin condition that affects millions of people and can affect males or females of all ages. The main characteristics of rosacea can be described as persistent erythema (redness), facial flushing, pink skin, telangiectasia (visible broken capillaries), and inflammatory papules (bumps) and pustules (blemishes). Fotona's laser system is an advanced and high-performance laser machine that combines two industry-standard laser modalities that are known to resurface, rejuvenate and improve skin tone and texture.

Note: Medicare Rebate available

BEFORE

AFTER

Active Acne

from **\$350 / x 6 \$1750**

This treatment reduces acne inflammation by penetrating the skin to selectively destroy large sebaceous glands which are often the underlying cause of acne, without causing any injury to the skin. ND:YAG laser wavelengths safely penetrate the skin to the optimal depth and also stimulates collagen remodelling. The laser is used to accelerate the healing process and to reduce the possibility of developing new acne inflammation. For mild to moderate acne, a single treatment is enough to suppress acne for up to 3 months or longer. For more severe acne, more frequent treatments are required to see continuous improvement over a few months.

Note: Medicare Rebate available

BEFORE

AFTER

Multiple treatments may be required to achieve desired results.
Please discuss expectations with your Doctor/Technician at time of consultation.

NightLase (snoring treatment)

NightLase (snoring treatment)

x3 **\$2000**

NightLase® reduces the effects of snoring by a gentle thermal tightening effect that strengthens the tissue and shrinks the collagen fibres in the mucosa of the mouth. It is safe, non-invasive and painless, offering a long-lasting solution. There is no anaesthetic required and no downtime after treatment. Packages of 3 treatments, performed every 4-6 weeks are recommended for effective longer results.

Multiple treatments may be required to achieve desired results.
Please discuss expectations with your Doctor/Technician at time of consultation.

Aesthetic Laser Treatments

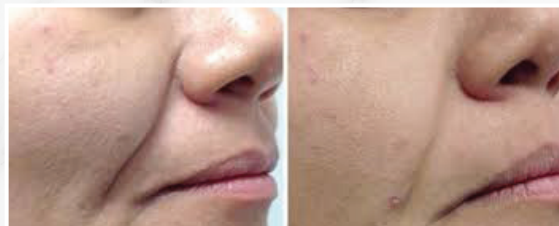

For non-Invasive treatments using our **Fotona Laser Technology**, please speak to our GP's to clarify what areas on the body we can treat.

Fotona 4D from **\$1000 / x4 \$3000**
Face & Neck from **\$1250 / x4 \$3750**
Face, Neck & Decollegage from **\$1500 / x4 \$4750**

The Fotona 4D Laser Facelift is a non-surgical procedure that addresses concerns of skin laxity, lines, wrinkles, volume loss and uneven skin tone and texture on the face. Fotona 4D enables full thickness contraction of collagen and stimulates new collagen production. The 4D uses 4 distinct modes of laser treatment to combat facial aging.

Fotona 3D from **\$750 / x4 \$2000**

The Fotona 3D Facelift uses 3 different modes targeting anti-ageing from three different levels, working synergistically to smooth, plump and tighten skin. In a series of treatments, this technique can smooth away fine lines, stimulate collagen contraction, improve skin tone and texture, and enhance overall firmness with long-lasting results. The 3D uses 3 distinct modes of laser treatment to combat facial aging.

Aesthetic Laser Treatments

Skin Tags

from **\$350**

This treatment targets the removal of skin tags.

Warts

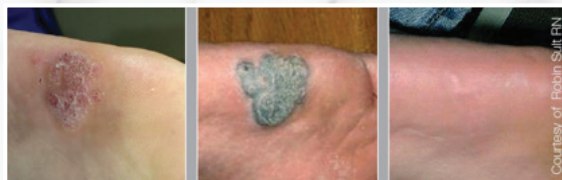

from **\$200**

Onychomycosis (Fungal Nail Infection)

from **\$250 / x4 \$750**

Treatment with Fotona's laser is usually weekly, for 4 treatments. The laser light heats evenly through the depth of the effected nail and skin tissue and stimulates the destruction of the fungus. Healthy nail will be visible at the base within 4 weeks. However, the healthy nail needs to grow through, so this takes time to become completely clear.

Gynaecological Services

Women's Health at New You Aesthetics

Fotona is a world-leading medical laser company, recognised for its innovative applications in Gynaecology Laser Therapy. The unique characteristics of these lasers means that your practitioner can precisely control the depth and extent to which the treatment will work and therefore can cater the treatment to suit your expectations and needs.

Urinary Incontinence - IncontiLase from **\$850 / x3 \$2000**

IncontiLase is a non-invasive laser therapy for treatment of mild and moderate stress Urinary Incontinence.

RenovaLase from **\$550 / x3 \$1400**

RenovaLase is a unique and innovative non-invasive laser therapy for symptoms of Vaginal Atrophy.

ProlapseLase from **\$950 / x3 \$2400**

ProlapseLase is a treatment based on precisely controlled laser which stimulates collagen remodeling and the synthesis of new collagen fibers. This results in the shrinkage and tightening of the vaginal canal, without removal of any tissue.

Note: additional session(s) - \$500 ea

IntimaLase from **\$600 / x3 \$1500**

IntimaLase is a unique laser therapy for incision-less non-invasive photo-thermal tightening of the vagina canal. The most common cause of increased vaginal diameter is over stretching during child birth.

Non-Invasive Labiaplasty x6 **\$2000**

Non-invasive labiaplasty is essentially a modification to the labia of the vagina, usually a reduction in size. Both inner and outer labia can be treated.

This procedure is becoming increasingly popular due to the laser technology we use, which results in no surgery and no general anesthetic.

Multiple treatments may be required to achieve desired results.
Please discuss expectations with your Doctor/Technician at time of consultation.

This versatile multi-application machine provides non-invasive aesthetic procedures to clients who would like to target: photo rejuvenation, active acne, hair removal, skin resurfacing, body contouring, cellulite reduction, skin tightening, and wrinkle reduction.

It offers three unique technologies: Intense Pulsed Light (IPL) with SmartPulse™, NanoFractional Radio Frequency with SmartScan™ and Venus Concept's exclusive (MP)2 technology (Multi-Polar Radio Frequency + Pulsed Electro Magnetic Fields).

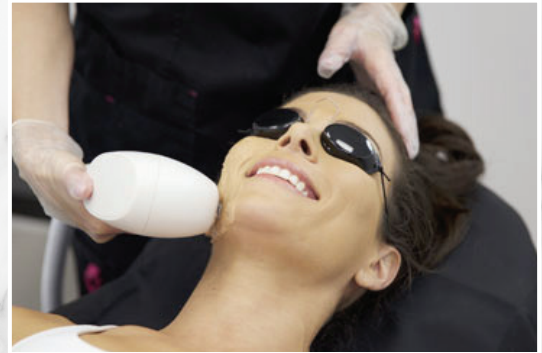

*All prices include an initial consultation, which is compulsory and performed at least 24 – 48 hours prior to your first treatment.
